

Marcos Martinez

PYTHON DEVELOPER

Profile

I am a self-taught computer science student who is fond of psychology, which gives me soft skills to communicate better with my peers.

My experience in the accounting and administrative area supports my motivation to focus on data science and machine learning.

I enjoy data analysis and understanding its composition, I apply order and neatness both in terms of work and personal in search of greater productivity.

I wish to be part of a work team in which I can develop my professional experience through assertive communication, in order to improve work performance.
